OMAR BOUHADDACH

Cybersecurity and Digital Trust Student

Meknès, Fès-Meknès, Maroc

Résumé

I am a first-year engineering student at ENSET Mohammedia, specializing in Cybersecurity and Digital Trust, with a strong background in Artificial Intelligence and Data Technologies. I am particularly interested in the convergence of AI and cybersecurity, focusing on securing systems, protecting data, and developing reliable digital solutions. Through academic projects and practical experience, I have built a solid foundation in both software development and applied machine learning. I am currently seeking opportunities to further develop my expertise and contribute to impactful, technology-driven projects.

Expérience

N7 SECURITY CLUB

Vice president

octobre 2025 - Present (7 mois)

Terrab Consulting & Innovation

Computer vision & Augmented reality developer

avril 2025 - juin 2025 (3 mois)

Meknès, Fès-Meknès, Maroc

I co-developed an innovative virtual shoe try-on application as part of a collaborative team project. Our solution reimagines the online shopping experience by enabling accurate foot detection, smart morphological analysis, and realistic visual alignment. Users can virtually try on shoes in real time through an intuitive and accessible web interface. This experience allowed us to overcome key challenges in computer vision, 3D alignment, and user immersion—while ensuring broad compatibility across mobile devices and browsers.

CNAI Club

Founder & Project Manager

octobre 2024 - juin 2025 (9 mois)

Founder and Project Manager of CNAI Club, an AI-focused student organization dedicated to artificial intelligence, data science, and emerging technologies.

- Founded and structured the club's vision, mission, and strategic roadmap
- Led and managed AI and data-related projects from ideation to execution
- Coordinated team members and supervised project workflows
- Organized technical workshops, training sessions, and collaborative events
- Promoted innovation, teamwork, and continuous learning

IMCOWORKSPACE

AI and data cloud solution developer

juin 2024 - juin 2024 (1 mois)

meknes

Stagiaire développeur de solutions AI & Data Cloud chez IMCOWORKSPACE à Meknès. Contribué au développement de solutions d'intelligence artificielle et à la création de chatbots pour optimiser l'interaction client et automatiser les services. IMCOWORKSPACE offre un espace de coworking ainsi qu'un soutien personnalisé aux entrepreneurs, startups et entreprises grâce à des conseils d'experts et une communauté dynamique.

Formation

ENSET Mohammedia

Ingénieur d'état, Ingénierie Informatique - Cybersécurité et Confiance

Numérique · (septembre 2025)

Ecole Supérieure de Technologie de Meknès (ESTM)

Diplôme universitaire de technologie (DUT), Intelligence artificielle et

technologies émergent · (octobre 2023 - juillet 2025)
